1. The Amendment filed on August 9, 2006 has been entered.
2. The drawings were received on August 9, 2006. These drawings are accepted by the Examiner subjected to the amendment below.
3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.
4. The following changes to the drawings have been approved by the examiner and agreed upon by applicant as seen in attached sheets:

(a) In Fig. 2, add the referential numeral 22 to indicate the first stop claimed in claim 1; and

(b) In Fig. 4, delete the lead line from the referential numeral 22 to the second stop 24.

In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.

5. Claims 1-10 are allowed.
6. The following is an examiner's statement of reasons for allowance: the Examiner agrees with Applicant's arguments presented on pages 6-9 of the above Amendment. More particularly, the claims are allowed because the closest prior art Arnold (US Patent No. 4,719,677) does not teach or suggest the limitations "a first stop (22) on said pilot web (12), said stop (22) being located at substantially the midpoint between said first end and said second end" (referential numerals added) in amended claim 1.

Art Unit: 3682

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure: Pollock et al. (differential carrier 18), Turner et al. (pilot web 46), Osenbaugh (carrier 20), Holman et al. (pilot web 178 in Fig. 2), and Buckendale (web 64, 84, etc.).
